03 / A SCRAPER WITH A BRAKE PEDAL

01	OFFICIAL DOOR	Known City listing, event, or PDF.
02	BOUNDED READ	One URL. No bypass. A 403 is a result.
03	SMALL RECORD	Title, time, status, availability, source.
04	HUMAN CHECK	Candidate data is verified before promotion.
05	PUBLIC TWIN	HTML, JSON, checked time, and change state.

USEFUL WITHOUT A DOSSIER.

- 01

Read only official public sources and retain the source URL.
- 02

Identify the collector and keep the scope narrow.
- 03

Respect robots.txt, access controls, server responses, and a human pace.
- 04

Record availability and conflict; do not invent a missing packet or resolve a deadline silently.
- 05

Call the first snapshot a baseline, not news.
- 06

Keep people out of the index unless a public role is necessary to understand the record.
- 07

Publish a machine-readable twin and a visible last-checked time.
- 08

Let the source remain authoritative and make correction or removal requests easy.

THE SOURCE KEEPS AUTHORITY.
